Astrological Report for
Lhamo Dhondrub
The Dalai Lama

Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience. Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below. While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness. In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth. We hope you enjoy your Astro*Talk profile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

Your Rising Sign

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

You come across as emotional and reactive. You sense things rather than think them through. You tend to mother and include everyone within your protective envelope... are more comfortable in this role.

Planet Aspects

The Lights: The Sun and Moon

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

The Sun: Your Self and Future

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

You are a very sensitive person who can depend on feelings and intuition to get around in life. Possessing good common sense, you are always very practical and down-to-earth -- mothering and protective to all. Security is very important. You also love cooking, growing things, and music.

Sun in Cancer

You are very fortunate in being able to grow and progress throughout your life without major difficulties. You can always find the resources you require at hand plus the necessary instruction in how to use them. An inner vision, coupled with the ability to see the "Big" picture, often finds you working as a go-between with others. You could even have a special gift for spanning the generation gap, bringing older and younger spirits together. A love of animals, children, older people, and the needy and downtrodden in general, is a lifelong trait.

Moon Sextile Sun

You push hard, but much energy is wasted because you tend to lack direction and planning. You often work against the way things are: authorities or the status quo. It may be difficult for you to coordinate your ambitions with your actual actions and feelings. You tend to hobble yourself emotionally. Your drive and passions put you at odds with authority figures time and again. This tendency towards clashes and emotional confrontation does exist, and at these times you can be your own worst enemy.

Sun Square Mars

Being successful in life is easy, for you have a built-in sense of how to approach and unravel even the most difficult problems. You have an instinct for

justice and the law, and you always know how to approach a problem from just the right angle. This ability makes you a natural counselor or guide for others, in particular regarding vocational matters. Working with and helping older persons is also suggested.

Sun Trine Jupiter

Responsibilities are easy for you, and you tend to pile on tasks, one after another. You work very hard, with a gritty resolve, and can accomplish much. It takes a lot to overload your willingness to take charge and help out. Organizational skills are good, and a career in one of the physical sciences is quite possible. You find it easy to work with those in authority or those who are more experienced than yourself.

Sun Trine Saturn

You have a natural ability to grasp spiritual and visionary matters and to put them to work. You can perform with the imagination and metaphysical thoughts like others work with durable things. This is because you understand what is behind and connecting things. Much of your own self-image is wrapped up with your ability to work with images -- dreams and the imagination. You would make a good teacher in areas of music, philosophy, and all that is mystical.

Sun Sextile Neptune

You are always out front and manage to spend a lot of time in the spotlight in social situations. A born teacher, others find you easy to watch and learn from. You are very animated, and it is easy for you to convey your ideas or get them across.

Sun Conjunction Ascendant

You seem to shine when it comes to practical matters or those involving work and career. You have an easy way with superiors or those in authority and can always manage to get the most out of any skill or ability you have. You like work and career.

Sun Trine Midheaven

The Moon: The Support System

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

You are concerned and caring when it comes to the welfare of others. Not dynamic or too emotional, you are attentive, observant, careful, and above all responsible -- able to respond. Always competent, you are in fact quite loving,

although others could feel scrutinized or inadequate when in your presence.

Moon in Virgo

A special affinity for old people and for children, plus an innate love of animals, the helpless, and the underdog. An inner vision coupled with the ability to see the "Big" picture often finds you working as a go-between with others.

Moon Sextile Sun

You have a knack for always finding assistance in whatever career moves you decide to make. In fact, your ability to rally support makes a public career of one kind or another quite probable. Success is indicated in education, politics, or the law. You know how to attack and solve problems, whether personal or public. Chances are, your social skills mean that you are popular with almost everyone.

Moon Sextile Jupiter

Your approach to discipline and responsibilities does not exactly cater to the moods and feelings of others. You have little patience for sentiment, tradition, and history. Your lack of control over your own feelings can result in real arguments. One result is that you may not always have the support of those around you. You sometimes have to go it alone.

Moon Opposition Saturn

You are very original when it comes to home and surroundings -- the environment you build around you. This could also manifest in unusual ways of supporting yourself. Your mother may have been quite eccentric or your upbringing somehow different. When you have breakthroughs, they often come as insights into your immediate surroundings, home, and environment -- your support system in general. This could also manifest in your finding new and different ways to make a living. You may have new ideas about the past, history, and younger people, find it easy to create an unusual environment, and enjoy surrounding yourself with what is new and different.

Moon Trine Uranus

You find the past, tradition, and all that is historical very romantic, and the ideal world of yesteryear seems to beckon and call. You are most imaginative when it comes to anything spiritual, or psychological -- pertaining to the psyche. Others find you entrancing and always able to draw them into your world of images and dreams. You can inspire them with spiritual ideals. No one has any doubt that you are a high floater -- a full-blown dreamer, complete with built-in psychic abilities and probably given to visions.

Moon Conjunction Neptune

Everything seems to conspire to put you in the limelight. You always come off well in a group and manage to get your ideas across.

Moon Sextile Ascendant

The Inner Planets: Mercury and Venus

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us.

Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

Mercury: The Mind and Communication

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

Yours is a lightning wit. You somehow know everything about everybody. Curious, you love finding things out -- speculating, investigating. You are clever but not known for your deep thinking, and any and all kinds of communication satisfy. You are always exploring, testing. Debates, games, and puzzles please you. Quick.

Mercury in Gemini

You like to work with words and ideas and have a natural appreciation for anything that is literary or artistic. Your sense of discernment when it comes to matters of literary and intellectual taste is very refined. You could write poetry or prose, and you put a very high value on the written word. You enjoy nothing more than a good conversation and may be very adept at speaking and communicating.

Mercury Sextile Venus

You have a great love of the written and spoken word, and ideas in all their flavors are what you like best to work with. Your enthusiasm for mind, the intellect, and the world of ideas makes it easy for you to communicate these things to others. You would be a good teacher. You have no trouble putting your feelings into words, and what you say always carries a lot of content. You could make a fine entertainer and an excellent speaker.

Mercury Trine Mars

Your love of talk, ideas, and expressing yourself to others may mean that your family and even your job may suffer. Your mind is often on your appearance, how you come across and relate to the crowd, to those around you.

Mercury Square Midheaven

Venus: Values and Discrimination

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

Big heart, big love, you are seldom petty. Given to grand gestures and dramatic scenes, you love independence and greatness in all forms and are very regal. You can be generous to a fault. Children and animals are high on your list of priorities. Fervently loyal, you are courageous and demonstrative.

Venus in Leo

Lovely words and a flair for description -- the artistic in all its many forms. An inner sense of warmth and goodness, and the ability to express this. Kind and easy to be with. Perfect taste in literary and artistic matters. Harmonious.

Mercury Sextile Venus

Your ability to discriminate real breakthroughs and to spot new trends makes you able to work in areas at the very fringe of technology. You love all that is new and different and are expert at sharing your feelings with others. Electronics, computers, communications (in fact, everything electrical) are right up your alley. You value independence in partners, friends, and love. You are what is called a "free spirit".

Venus Trine Uranus

The External Planets: Mars, Jupiter, Saturn

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

Mars: Drive and Emotions

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

You have an inner urge to be all things to all people and would rather bend than argue or make an issue. You are a natural diplomat, always courteous and concerned with the comfort and welfare of others. You stay in the background, but are able to manipulate and bring out cooperation in others every time.

Mars in Libra

Your drive to succeed is strong, but you often push yourself in a direction against your own best interests. Your ambitions may find you at odds with authority figures again and again. A tendency towards arguments and emotional drama exists.

Sun Square Mars

Language, sound, "the spoken word" are in focus. The ability to give words meaning or to put ideas into words and give others a feeling for what things mean. Communicating with words. Also a sharp and clear mind. Quick, even clever. Entertaining.

Mercury Trine Mars

There could be a lot of emotional tension with this combination. You tend to set yourself against whatever forces of change manage to rear their heads around you. This is never more true than where your feelings are concerned. Your attempt to remain untouched and impersonal seems doomed to failure. Everything intrudes, gets too personal, and threatens to hurt your feelings. Your insistence on being an emotional island is probably interspersed with bursts of anger, even fits of rage.

Mars Square Pluto

Jupiter: Career and Life Path

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

An in-fighter, with animal-like instincts when it comes to big business, you are always where the action is most intense. Your penetrating mind gets through the B.S. and straight to the bottom line every time. Exciting to be near, you are an entrepreneur, the big wheel. Sometimes restless, driven.

Jupiter in Scorpio

You have a sense of justice and an innate ability to understand the law, whether natural or manmade. Showing others the way through or beyond the problems in their lives comes easy, for you sense how to manipulate the opportunities of life. Lucky.

Sun Trine Jupiter

Like a fish in water when in the limelight or in a group, you have an innate social charm. Political and lucky too! A natural sense of what's right or of the way to get things done brings great popularity, even renown. Law, education. Could be lazy.

Moon Sextile Jupiter

You are a natural architect and builder, able to use your mind to make decisions in matters of form and function. For you, the goal and the way to get to it are the same thing. You like to build each step and have each decision be an end in itself. Things must be done right. You also have great skill with the law, whether man-made or those of nature, and you can put all of this into words. You

could well teach others in these areas. You understand how to handle authorities and have a natural gift at solving problems.

Jupiter Trine Saturn

You would do well in a career in music, poetry, psychology, philosophy -- the realms of the imagination. You work well in these areas and can help or teach others by sharing your understanding. You can serve as a guide to the nether worlds of the mind and psyche -- religions, mysticism, and so on. Spiritual problems and questions are easy, for you always grasp the unity behind what appears separate.

Jupiter Sextile Neptune

Your manner is so facilitating and attractive to others that you would make an excellent counselor or teacher. You find it easy to solve the problems that present themselves, and others benefit from this ability of yours.

Jupiter Trine Ascendant

Saturn: Responsibilities

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

There could be problems with selfishness. You tend to ignore or avoid opportunities to help out and give of yourself. You fear the deeper, mystical side of life and need to practice putting others before yourself. Also learn to use intuition and feelings. Lend a helping hand.

Saturn in Pisces

There is a real love of science and natural laws. You are a hard and tireless worker, with absolute determination and the ability to accomplish great projects with ease. You are fiercely loyal to your friends. Also, very integral... perhaps too sober.

Sun Trine Saturn

You tend to organize and discipline yourself in a very different manner from the rest of your crowd. Others may complain that your methods may ignore feelings and personal rapport. You could turn your back on the past, ignore sentiment and moods.

Moon Opposition Saturn

You possess an architect's vision for what needs to be done and how to do it

right to make it last -- an expert or true builder. Knowing what tool to use and just how and when to use it. A sense of the right path or dharma. With you, the means and ends are identical.

Jupiter Trine Saturn

Your sense of duty and the responsibilities you may have could cause you to ignore or forego some of your actual ideals, the things you have most dreamed of. A conservative streak sets you against anything that is not realistic, and you have no patience for pie-in-the-sky and things that are not tied down. Mysticism, psychic phenomena, and the imagination in general intrigue you, despite your convictions to the contrary. You could take a vacation from your responsibilities and explore some more imaginative regions.

Saturn Opposition Neptune

You express yourself deliberately and don't waste your words. You have a natural sense of organization and come across as disciplined and careful, perhaps a little too sober.

Saturn Trine Ascendant

The Outer Planets

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the transpersonal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

Uranus: Break-Thrus & Insights

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

You have new insight into home, possessions, and the whole domestic scene. Financial independence and novel ways to earn money and make a living interest you. You get away from it all with gardening, building, and family life. You discover freedom in steady, predictable growth -- like a plant growing.

Uranus in Taurus

The life of the party, able to loosen up even the most sober. Great at bringing out the best qualities of others, discovering hidden talents. New and innovative ideas regarding the social scene. Spontaneous, on the move. Independent.

Moon Trine Uranus

A love of the new and unusual. Able to grasp and appreciate new trends and concepts at the very forefront of technology. A very free spirit when it comes to friends, lovers, and tastes. In love with what's original. Breaking through.

Venus Trine Uranus

Your insight and vision into what unites people and into the dreams and mystical regions of our mind is profound. You have an enchanting way of working and communicating with others in these matters and with music and the arts. New paths to world or personal unity are a major interest, and you have a very practical sense of how to make your dreams real.

Uranus Trine Neptune

Neptune: Ideals & Imagination

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Practical salvation is the idea, saving the physical. You do this via exercise, diet, vitamins, life-extension aids, and such, and right livelihood is as important as right food. Song lyrics. You love to restore and redeem the physical world. A great love of details or trivia.

Neptune in Virgo

A born mother to any and all forms of life. Very compassionate and attentive (aware of) the needs of others. Spiritual ideas and concepts are a way of life here. There is deep appreciation, even love for, movies, big ideas, themes. Visionary director.

Sun Sextile Neptune

You are a dreamer, with real psychic abilities and prone to visions. You are like a fish in water when it comes to spellbinding a group with images and dreams -- entrancing. The psychology of groups and cultures is transparent to you.

Moon Conjunction Neptune

Prefer the forest to the trees, the common to the uncommon or special. At home in ideas of man's essential unity. Religious and psychological ideas are natural. Will act as a minister to others, like it or not. You can sense and see the unity of life.

Jupiter Sextile Neptune

Your more conservative tendencies tend to put a damper on your dreams and deep-seated ideals. You may tend to escape your responsibilities via friends and excursions, mental or otherwise, into the realms of imagination, films, poetry, and the like.

Saturn Opposition Neptune

A new and waking vision of unity. A powerful sense of music and a faith in making the ideal a reality--for reality to be as we dreamed it and our dreams to become as real. New concepts in group work. The dewdrop slips into the shining sea.

Uranus Trine Neptune

You are charming and always manage to enchant others with your words and manner. You bring a sense of the beyond and mystical to any conversation.

Neptune Sextile Ascendant

Pluto: Inner Change and Growth

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

You may go through a lot of changes that affect your sense of security. Your home and family situation could be a focus for growth and real learning -- an area of great sensitivity or vulnerability.

Pluto in Cancer

Your ambition and drive is often at the expense of your inner self and sensitivities. You may find yourself ignoring signals that indicate a need for change, transformation, and vulnerability in general. Bursts of intense anger are possible.

Mars Square Pluto

The supportive help of women or a girl can be an important factor that will affect business or reputation and increase your sense of security. You are a fine psychologist, researcher, or detective and are good at dealing with joint or others'

finances.

Pluto Trine Midheaven

Challenges and Abilities

Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

You find the past, tradition, and all that is historical very romantic, and the ideal world of yesteryear seems to beckon and call. You are most imaginative when it comes to anything spiritual, or psychological -- pertaining to the psyche. Others find you entrancing and always able to draw them into your world of images and dreams. You can inspire them with spiritual ideals. No one has any doubt that you are a high floater -- a full-blown dreamer, complete with built-in psychic abilities and probably given to visions.

Moon Conjunction Neptune 02°32'

You are always out front and manage to spend a lot of time in the spotlight in social situations. A born teacher, others find you easy to watch and learn from. You are very animated, and it is easy for you to convey your ideas or get them across.

Sun Conjunction Ascendant 02°57'

Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscurity often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

Your approach to discipline and responsibilities does not exactly cater to the moods and feelings of others. You have little patience for sentiment, tradition, and history. Your lack of control over your own feelings can result in real arguments. One result is that you may not always have the support of those around you. You sometimes have to go it alone.

Moon Opposition Saturn 00°19'

Your sense of duty and the responsibilities you may have could cause you to ignore or forego some of your actual ideals, the things you have most dreamed of. A conservative streak sets you against anything that is not realistic, and you have no patience for pie-in-the-sky and things that are not tied down. Mysticism,

psychic phenomena, and the imagination in general intrigue you, despite your convictions to the contrary. You could take a vacation from your responsibilities and explore some more imaginative regions.

Saturn Opposition Neptune 02°13'

Your love of talk, ideas, and expressing yourself to others may mean that your family and even your job may suffer. Your mind is often on your appearance, how you come across and relate to the crowd, to those around you.

Mercury Square Midheaven 03°44'

You push hard, but much energy is wasted because you tend to lack direction and planning. You often work against the way things are: authorities or the status quo. It may be difficult for you to coordinate your ambitions with your actual actions and feelings. You tend to hobble yourself emotionally. Your drive and passions put you at odds with authority figures time and again. This tendency towards clashes and emotional confrontation does exist, and at these times you can be your own worst enemy.

Sun Square Mars 05°21'

There could be a lot of emotional tension with this combination. You tend to set yourself against whatever forces of change manage to rear their heads around you. This is never more true than where your feelings are concerned. Your attempt to remain untouched and impersonal seems doomed to failure. Everything intrudes, gets too personal, and threatens to hurt your feelings. Your insistence on being an emotional island is probably interspersed with bursts of anger, even fits of rage.

Mars Square Pluto 06°60'

Talents and Abilities

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

You express yourself deliberately and don't waste your words. You have a natural sense of organization and come across as disciplined and careful, perhaps a little too sober.

Saturn Trine Ascendant 00°05'

Everything seems to conspire to put you in the limelight. You always come off well in a group and manage to get your ideas across.

Moon Sextile Ascendant 00°14'

Being successful in life is easy, for you have a built-in sense of how to approach and unravel even the most difficult problems. You have an instinct for justice and the law, and you always know how to approach a problem from just

the right angle. This ability makes you a natural counselor or guide for others, in particular regarding vocational matters. Working with and helping older persons is also suggested.

Sun Trine Jupiter 00°33'

You have a natural ability to grasp spiritual and visionary matters and to put them to work. You can perform with the imagination and metaphysical thoughts like others work with durable things. This is because you understand what is behind and connecting things. Much of your own self-image is wrapped up with your ability to work with images -- dreams and the imagination. Sun Trine Saturn 02°52'

You are very fortunate in being able to grow and progress throughout your life without major difficulties. You are a natural architect and builder, able to use your mind to make decisions in matters of form and function. For you, the goal and the way to get to it are the same thing. You like to build each step and have each decision be an end in itself. Things must be done right. You also have great skill with the law, whether man-made or those of nature, and you can put all of this into words. You could well teach others in these areas. You understand how to handle authorities and have a natural gift at solving problems.

Success is indicated in education, politics, or the law. You know how to attack and solve problems, whether personal or public. Chances are, your social skills mean that you are popular with almost everyone.

Moon Sextile Jupiter 03°44'

You are very original when it comes to home and surroundings -- the environment you build around you. This could also manifest in unusual ways of supporting yourself. Your mother may have been quite eccentric or your upbringing somehow different. When you have breakthroughs, they often come as insights into your immediate surroundings, home, and environment -- your support system in general. This could also manifest in your finding new and different ways to make a living. You may have new ideas about the past, history, and younger people, find it easy to create an unusual environment, and enjoy surrounding yourself with what is new and different.

Your enthusiasm for mind, the intellect, and the world of ideas makes it easy for you to communicate these things to others. You would be a good teacher. You have no trouble putting your feelings into words, and what you say always carries a lot of content. You could make a fine entertainer and an excellent speaker.

Mercury Trine Mars 07°15'

Your insight and vision into what unites people and into the dreams and mystical regions of our mind is profound. You have an enchanting way of working and communicating with others in these matters and with music and the arts. New paths to world or personal unity are a major interest, and you have a very practical sense of how to make your dreams real.

Uranus Trine Neptune 07°19'

You seem to shine when it comes to practical matters or those involving work and career. You have an easy way with superiors or those in authority and can always manage to get the most out of any skill or ability you have. You like work and career.

Landscape: Major Life Periods

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

Your Personal Background

A fairly easy childhood up until around the 11-12th year, at which time you will begin to become more subjective and inner-directed. This could mean that your adolescence is somewhat more lonely and less socially oriented than the average. This inner time of exploration lasts until you are about 18-19 years of age. At that time, you will proceed to take hold, discover yourself, and become

more outward -- in a rather short time. Your sense of confidence will take hold and build, and the years of introspection will pay off as you begin to reach out. The years from 18 through 25 or 26 will be ones of hard work and continued gains in self-confidence. From the 26th year, your real climb to fame and fortune will commence. Your 30s and 40s will be very good and successful years.

Your Current Situation

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

Aug 25, 2003	1st Pass D> (Age 68 1m)
Dec 29, 2003	2nd Pass R< (Age 68 5m)
May 12, 2004	3rd Pass D> (Age 68 10m)

The date(s) (above) indicate the end of a very outward and perhaps successful period of years for you, during which you may have had an opportunity to establish yourself both in career and reputation. You may find yourself becoming less interested in the outer and social world and more interested in your own inner changes. There will be less of an impulse for recognition along with a growing sense of being by yourself and enjoying it. This coming time will be less outward and may call for a change of approach and perhaps life style. This is not a time of outreach, not the best point to start any great projects. Instead you may wish to consolidate what you now have, pull back a bit, and prepare for a number of years of a more inward and personal nature. This will be a time of introspection, and you may find yourself letting go of plans and projects started in a more outward phase but as yet uncompleted. You may take an interest in your own psyche, religion, and spiritual ideas. This is a time to absorb and take in new impressions and information. In summary, here is a natural breaking-point in life, a time to let go of what has been occupying you for the last years and assume a new attitude. Many people find themselves withdrawing socially and enjoying their own company. In summary: This marks a more inward period that will last 6-7 years, during which you may feel insecure and on your own. Don't expect to make great headway in the outer, social world. Bide your time and prepare for your "coming out" a few years down the road.

The Elements, Modalities and Angularity

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

You experience life mostly through your emotions and how you "feel" about someone or something. Your intuition is strong and can guide you accurately in making forecasts or decisions. Your sensitivity makes you recoil from aggressive types.

Have Water

Your inner self-confidence may be lacking, and you could try to overcome this by defensive aggressiveness. You probably wish you had more of the self-assurance your fiery acquaintances have.

Want Fire

Very communicative, flexible, mental, and other-oriented. Perhaps you can be all things to all people, giving them what they require. Probably a smooth talker with a quick wit and ready tongue.

Have Mutable

Circumstances can throw you into positions where you must use your mind and deal with communications, service, or enclosed hidden interests. You may deal with education, psychology, spiritual enlightenment or teaching principles and techniques.

Have Cadent

You are inclined to do things from outer necessity rather than for emotional or idealistic reasons. Your theories and mental activities may be fine, but you may lack heart or the fixedness (or the necessary time) to let things ripen.

Want Succedent

Your Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or

"burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have a very high burn rate (index of change) and tend to run hot and fast. It is almost like having many lifetimes within this single one. Things are always fast and furious with you, and you seldom remain calm for long. Your thirst for experience and growth keeps you always on the move. You work through an enormous amount of change compared to an average person. In particular, the following qualities are areas where you have experienced and will continue to experience much change. These areas of life persist in presenting themselves to you, so you may already have become very experienced in them. On the other hand, they could be arenas in which you struggle but have not yet attained mastery.

A majority of planets in the PAST suggests that you are comfortable with established values. You know and understand more than you let on, and life changes seldom take you by surprise. You have a great deal of control over your actions.

Planets in High Focus

The mind, and all that is mental, will be the source of continued change and adjustment. Letters, writing, speaking, and all things having to do with communication and cognitive work assume great importance. Your mind tends to be engrossed with thoughts, ideas, and concepts and remains in almost constant flux. Mental learning is an area of preoccupation.

Mercury

You will go through a lot of change regarding personal values -- your ability to appreciate, measure, and appraise things. You may find yourself preoccupied with possessions and the way you feel about them. All matters of value, valuing, and ownership will be the source of continuous learning. Issues of compassion, love, and care are areas that will require learning.

Venus

Emotional change and growth will be in high focus and amount to a constant in your life. A high burn rate here suggests that feelings, motivation, and sheer drive will be a trademark as well as a source of continual experience and learning. You find yourself in constant change in matters of feelings, and emotional scenes are part of your stock and trade. Experience in these realms will be extensive.

Mars

Questions of attitude, approaches to problem-solving, and the methods for handling authorities and the law are in high focus and are indicated by a high burn rate regarding your career and making your way through life. Perhaps you

will have many jobs or be forever going through changes and adjustments that affect your career. It could be difficult finding lasting success or prosperity, and the path to it may be areas where you have real experience and particular expertise.

Jupiter

There are big changes (high burn rate) throughout your life in matters of organization and responsibility. It may be difficult for you to learn to be thorough, to finish things, and take care of all the loose ends. You may have a lot to learn regarding what is and what is not essential in life -- separating the wheat from the chaff. Getting down to the nitty-gritty, the bare bones of the matter, could well be a major lesson.

Saturn

You have a high burn rate when it comes to questions of your independence and autonomy. You tend to rebel and buck authority, and this will be a major source of change and adjustment. You will be concerned with issues of freedom and independence far beyond the average person. A passion for inventions, electronics, and the like can also be expected.

Patterns: Your Inner and Outer Self

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

You are no secret. Outside or inside, there is not much difference. You are just as you appear.

Geo: Square Helio: Square

Your Soul Type

You are independent, confident, and more than likely more than a little self-centered. You love attention and somehow manage to gravitate to the center of almost any group or happening. Others accept you, for they sense you are a leader and admire your almost regal manner. Yet they may have to keep their distance, for as much as you love attention and the crowd, you are also fiercely protective of your independence, sense of freedom, and -- above all -- your privacy. There is a kind of contradiction here. When in the mood, you love to express yourself, entertain and perform for others, and enjoy being surrounded

by an audience. You are very magnetic and dynamic. Others love to be with you. There is something about you that others can't seem to get enough of; yet for all your confidence, you tend to depend on others for advice and counsel. Your grasp of the moment is unquestioned. You're it, or at least always in the midst of it. Yet you find yourself needing the advice of someone who is not as involved, someone to give you directions from time to time. In a sense, you are all dressed up but are not sure where to go or where you are headed. And because of this, you depend on those around you for direction and guidance during the times when you lose sight of the bigger picture.

You are a very feeling person and can sense the drift of a situation without a lot of analysis. This immediate "hands-on" approach might be contrasted with one that is more deliberate and cerebral. You could be left with a bit of an inferiority complex when it comes to matters of education, philosophy, and conceptual ability. In a word, you revere this kind of stuff, not because it is natural to you but rather because it does not come easy for you. You have to work for it. There may be a tendency on your part to puff up your intellectual powers.

It is said that there are just two kinds of people in the world, those who are born to love and those who are born to be loved. You are the second type, one who is born to be loved and cared for by others. Don't feel bad about attracting attention in a group. People love to be with you and find you very easy to love. Everyone wants a piece of you, and this can result in your needing more space, a chance to be alone. Your type is not famous for being attentive to the needs of others or being very demonstrative in a love relationship. You are the immovable object that others find irresistible and sometimes selfish. You love to express yourself and are a born entertainer. You are very stubborn and have great stamina. You may tend to fear that others find you a little dense or too sense-oriented. You radiate energy and information and have to just accept the fact that people like to feel your warmth. Let them take care of you. You sit on the throne.

Square Type

The Key to your Inner Life

Each person has one or more key qualities. Here we are not referring to our appearance or personality, but rather to our inner nature, how we are when someone really gets to know us.

At heart, you have a deep sense of responsibility and purpose, and this seriousness is genuine and felt by others. You seem to gravitate to those things which last and hold true, and are always separating the wheat from the chaff. You manage to get down to the bare bones. Matters of law, religion, and philosophy of the most resolute kind hold your interest.

Saturn

At the deepest level, you are a high floater, very much at home in the realm of visions and dreams -- a seer. Your inner ideals are pure and spiritual in the true sense of the word. You always see beyond that which is divisive to the unity that binds it all together. You grasp the theme or thread that connects things. There

may well be the ability to entrance, either with words or music, and to overcome any objections with a flood of concord. When it comes to images, you are a smoothie. This tendency to see unity in the world around you sets the tone for your character.

Neptune

The Key to your Personality

Your sense of direction (handling a person or a problem) is perhaps the key element in your personality make-up. How you manage difficulties, find that diplomatic solution, or come up with the right approach all are built around your talent. Your outward charm and ability to be all things to all people is what is most central to your personality. This ability to solve problems, to counsel and always to put others at ease is the key to meeting and coming to know you.

Jupiter

Your outward seriousness and no-nonsense approach to things is obvious to all. This deliberate sense of responsibility comes across and is central to your personality and the way you relate to other people. Everything is run through your checkpoint to see if it holds up and can pass the test. You can be a stickler with details.

Saturn

The Personal Hot Spot

When you get stress, it will tend to affect your sense of independence and originality -- for better or worse.

Uranus

Interface: Innermost qualities

This feature is based on an intricate analysis of the position of a particular planet in relation to the orbital planes of the other planets. The resulting series of crossings, or nodes, tells us something about the nature of our innermost inclinations (Inc) and disinclinations (Dis). These indicators are not to be considered at the level of our personality, but rather are deep-seated parts of our innermost character -- our internal biases. These pros and cons are not apt to change in the course of our lifetime.

You have a hair-trigger temper and it takes little to set it off. Your sharp-tongue is well-known and you use it before you have time to think, resulting in little mental and verbal explosions that you regret later. The sad part is that half the time you don't even mean what you may have said in anger. What is clear to those around you is that you communicate as much with your feelings as with words. People learn to look at what you do, rather than what you say. Your mind is very, very sharp. The less said the better.

Mercury Dis Mars

You may have trouble with any ideas that are new and different. Your more conservative way of thinking and expressing yourself goes against all that is radical and new. Thoughts and concepts that break with tradition may be a hassle for you -- a constant headache. You prefer that conversations and communications stay on the accepted paths and become irritated when they stray from what you expect. You have a tendency to lose your temper with little warning.

Mercury Dis Uranus

You don't spend a lot of time thinking out your problems, considering solutions, and the like. Your thoughts are most often elsewhere, and tend to be impractical much of the time. You can't seem to figure out the right course of action. This is most true when it comes to your career or vocation. Not a good counselor yourself, you are well advised to seek the advice of someone you trust when it comes to matters of your career.

Mercury Dis Jupiter

Anyone who tries to get you to play with words is in for a big surprise. Your mind cuts right through all the window dressing and gets right down to the quick. Before anyone knows it, you have the heart of the matter out front for everyone to see. You would make a great investigator, either in scientific research or undercover work. It makes no difference. Your ability to get to the point is all but phenomenal. You can talk and put into words areas of the psychological that others wouldn't touch with a ten-foot pole.

Mercury Inc Pluto

You value fairness in all things and go out of your way to be just. You appreciate others who have been successful and may surround yourself with those in power, be they politicians, officials, what-have-you. Your sense of quality and discrimination may amount to some sort of livelihood for you. You could make your living with your good taste. In addition, you have an innate sense of how to work with and guide others in making decisions. You understand the choices and can spot the right ones.

Venus Inc Jupiter

You are responsible to the extreme, always taking on obligations and pushing yourself to the limit. You pursue your obligations with much emotion and obvious enthusiasm. You are Spartan when it comes to your needs and surroundings. Small and less are beautiful for you. If anything, you try too hard and tend to force things. Others may find your approach severe and hurtful at times. You can be too sober and frugal.

Saturn Inc Mars

You are probably hard to control and very unpredictable. Your drive for independence is obvious, and it is clear that the common and the traditional are not for you. Anything else but that! You pursue alternate or nonconformist solutions to life with great energy. Your temper is hot and sharp and tends to

snap out like a lightning bolt. You are aggressive in the pursuit of gaining insight into all that is new, different, and out of the ordinary. Electronics, computers, and communications could be a big part of your life.

Uranus Inc Mars

The more disciplined side of you has no time for dreams, visions, and other-worldly stuff. You ignore anything that is not tied down and practical. And yet, all this spiritual stuff has a way of intruding into your real world. You come up against it again and again. You can't live with it, and you can't live without it. It seems you feel that dreams and a more "ideal" life must take a back seat to reality and the (sometimes) drudgery of routine. You keep finding yourself looking out the window.

Neptune Dis Saturn

You have a relentless drive to get at the heart of things, whatever is under the surface or behind the scenes. Your relentless pursuit of anything hidden or secret makes you a researcher or investigator bar none. Emotionally you are also hot stuff, rushing into areas and handling subject matter that others would never come near. Vulnerable issues, sensitive areas of the self, and psychology are the first places you head. This amounts to a passion with you. Those around you may find you just too intense to be around. It puts them through a great many changes.

Pluto Inc Mars

Secrets have a short half-life around you, for you have them out in a wink of an eye. You are brilliant when it comes to insights into the mind, psychology, and motivation -- yours or others'. Your intensity is obvious, and some may prefer to keep their distance rather than subject themselves to your laser eye. Nothing is passed over without being turned inside and out. Your analytical powers are superb, and you enjoy finding new avenues of inner growth.

Pluto Inc Uranus

When you love, you love with energy and passion. You value personal contact, cutting through all the externals and getting to the heart of things. You understand and appreciate vulnerability and have no compunction about presenting your own sensitive spots to others. You enjoy working behind the scenes, getting at secret and hidden areas of the mind and psyche. Changes and transformative experiences are where you like to be most.

Major Transits Happening Now

Astrologers use the term "transits" to mean the positions of the major planets that are overhead (in the sky) right now and their relationship to our birth chart. Transits are very important indicators of the current situation in which we find

ourselves. They can provide insight into what we are now going through. Here are the dates when the next major transits for the planets Jupiter, Saturn, Uranus, Neptune, and Pluto are exact in your chart. Some dates will have already passed and some are still to come. Remember, with these large planets transits don't just happen on the day when they are exact. They cover a wide span of days, weeks, months, and sometimes years, depending on which planet is involved.

In general, transits of Jupiter take from several days to a week or two to complete, while those of Saturn take from two weeks to a month to play themselves out. With the outer planets, the period of activity is even longer: transits of Uranus take about two months, Neptune three or four months, and Pluto takes about a year. Uranus, Neptune, and Pluto move so slowly that the complete transit experience may take a year or two to complete itself. So be prepared to work with these situations.

A time when your inner and personal thoughts and experiences cannot be put into words, or had best not be. Ideas and communication in general may tend to be superficial, deliberately avoiding anything of substance or controversy.

House Activity and Emphasis

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

First House: Appearance, Approach

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

First House

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

Cancer

You tend to be out front and personable. Your personal appearance is important to you and you put a lot of thought and effort into how you appear or come across. Others notice you, and a position of leadership (prominence) is likely.

Sun in First House

You are very out-front and candid, probably not known for your great sense of diplomacy or tact. Your intensity and passionate approach to life are obvious to all who meet you. You are driven to penetrate the superficial and get at the essential.

Pluto in First House

Second House: Possessions, Reactions

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

Second House

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity

and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

Leo

Third House: Inquiries, Communications

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

Leo

You have a knack for putting the feelings of a group into words and may serve as a teacher or spokesperson. Communication is one area where you can always get support and backing from friends and co-workers. Historical ideas may interest you.

Moon in Third House

You love to communicate and pursue conversations. The mental world appeals to you, and you are very discriminating (but appreciative) when it comes to concepts, ideas, thoughts, and the like. You value good research and real inquiry.

Venus in Third House

Your mind tends to be very imaginative and not concerned with facts and figures. Instead, ideas and writing of a mystical or poetic nature appeal. Research into religious or very idealistic subjects is indicated.

Neptune in Third House

Fourth House: Home, Family, Security

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

Fourth House

Virgo energy is analytical and precise, always separating what is worthwhile

and worth supporting from that which is outmoded and of no further use. A mental sign, where thinking and examining are in high focus. Also, a different kind of mother, here an endless caring and worrying (fussing) about just about everything. Always compassionate and responsive, Virgo energy is service-oriented above all, often thinking and caring more about what others are doing and thinking than for self.

Virgo

You are driven to send down roots, dig in, and find the limits of whatever you are involved in. This urge to be secure always pushes you to always get to the foundation of things. You are motivated when it comes to home and family.

Mars in Fourth House

Fifth House: Expression, Creativity

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

Fifth House

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. What is sometimes seen as two-faced is only Libra's facility at responding to each in kind. This is certainly the social sign, par excellence. Impersonal and impartial, this sign doles out only what is demanded, never overdoing things.

Libra

You could be successful working with creativity and self-expression through the arts and theater, in sports, or with the ultimate self-expression, children. You may find yourself a guide and teacher to others when it comes to these matters.

Jupiter in Fifth House

Sixth House: Responsibility, Work, Health

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

Sixth House

Sagittarius is nothing if not direct, candid, and to the point. Sometimes harsh, this energy always is concerned with the absolute truth of the subject at hand. Associated with philosophy, religion, and all things that last, Sagittarius energy is always welcome in politics as well as social and community endeavors, where its

basic fairness and evenhandedness is helpful.

Sagittarius

Seventh House: Relationships, Other People

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

Seventh House

Capricorn is the business energy of the zodiac, for it is the very opposite of the emotional Cancer. Given to clear-headedness and practical insight and vision, this sign always takes a distanced perspective, a cool appraisal. Logical and painstaking, Capricorns love hard work and earned results. Money and things in general are very important.

Capricorn

Eighth House: Business Savvy, Elimination

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

Eighth House

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

Aquarius

Ninth House: Religions, Philosophy, Ideas

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that is the very heart of things belong here.

This sign tends towards coolness, independence.

Aquarius

Religion, philosophy, and truth are essential to your life. You are painstaking and deliberate when it comes to sorting through ideas and values for what is lasting and solid. You may appear to others as too sober or religious.

Saturn in Ninth House

Tenth House: Practical Vision, Vocation

The 10th house is a house of practical vision and clairvoyance, for here we can see clearly what is. Reputation and career are often connected to this house, since the areas where we can see with greatest clarity are those we most often can put to use to make a living. In summary, this house is where we have real vision and can see to do and work. Planets transiting this house may provide moments of insight and clear-seeing as well.

Tenth House

Pisces energy runs deep and toward the psychological -- whatever is beneath the surface. This sign is understanding, patient, and long-suffering. Pisces tend to absorb all the little barbs and digs coming from outside. They always have their mind on an inner goal, something more important. They are very forgiving and accepting -- giving of themselves for the sake of more important issues.

Pisces

Eleventh House: Dreams & Visions, Community

The 11th house has to do with putting our visions and dreams to work. We have been on the mountain and had a vision (10th house). Here we take our vows never to forget what we have seen and to work hard to make these dreams into reality. Thus this house has always been connected with altruistic and humanitarian goals and trying to set them in motion. It is the house of friends and community, because when we are powered by a real insight or vision we share with all -- irrespective of differences.

Eleventh House

Aries is the sign of the pioneer and leader. It is always impulsive, concentrated, and spontaneous. Act first and think about what you have done later. Rushing in where others fear to tread, the Aries energy is attention-getting. It always provokes a response from the surroundings, from others. There is something essential and instigative that starts or causes something else to happen -- a reaction or response.

Aries

You may enjoy eccentric or unconventional friends, and groups with some kind of humanitarian flavor will appeal. You have very original ideas when it comes to community, making our collective dreams into a reality.

Uranus in Eleventh House

Twelfth House: Sacrifice, Psychology, Acceptance

The 12th house is about all that we go through in order to make our dreams

into reality and manifest them in the world around us. It covers what we are willing to put up with, the sacrifices we will make in order to bring across what is really important. This is connected to prisons, institutions, betrayal, self-undoing, and the like, because it is here that we must choose to take some possible abuse for the sake of the message we are carrying, or blow it all away with a negative reaction.

Twelfth House

Gemini is concerned with connections and communication of all kinds -- letters, wires, telephones, voice, thoughts, writing, and mental processes in general. Gemini is the gadfly, the communicator, the gossip of the zodiac. Searching conversations, scientific inquiry, research, and so on belong here. Gemini energy is unattached, independent, and inquisitive.

Gemini

Your mind is naturally interested in all that is psychological and beneath the surface of things. Ideas of self-sacrifice and compassion -- how to serve and help others -- are what you tend to think about.
