Astrological Report for
Denzel Washington

Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience. Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below. While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness. In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth. We hope you enjoy your Astro*Talk profile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

Your Rising Sign

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

You are all things to all people, always responding in a way to please and flatter -- a social being. You are so diplomatic and polite that one wonders if you have a viewpoint of your own. You have a natural ability to reflect and mirror others.

Planet Aspects

The Lights: The Sun and Moon

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

The Sun: Your Self and Future

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

You have clear vision and can see what to do. Happy when in control, you enjoy managing anything practical. Not too emotional, you are objective, businesslike, and reliable -- disciplined. To you, life is a serious business and you are a great provider, always far-sighted. You are social, or public- oriented. Practical.

Sun in Capricorn

You communicate with consummate skill, and it is stimulating just being with you. Your high degree of mental concentration makes you an excellent student, able to excel in speaking, writing, and all types of communication skills. Your ambitions go hand-in-hand with communication and using the mind, and the two should never be far apart.

Sun Conjunction Mercury

You find it easy to work with sensitive material, touching upon the more vulnerable areas of the mind or self. You are able to handle these delicate matters without ever breaking stride, for emotional and tender areas of the human psyche don't phase you. You enjoy getting beneath the surface and have an innate savvy for handling touchy subjects. This is perfect for any research investigation or plain old detective work.

Sun Trine Pluto

Expressing yourself and your relations with others are not always smooth and may tend to get explosive. You could be preoccupied with job and family to the exclusion of a social life. You may have trouble getting your ideas and thoughts across to others.

Sun Square Ascendant

You tend to be a home body, and family interests often outweigh career concerns. This could prove difficult if you neglect practical matters or go out of your way to challenge those in authority. Others may find you uninterested in fame and career.

Sun Opposition Midheaven

The Moon: The Support System

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

You are inspired, for humanity is your family and you are seldom bound by tradition or domestic ties. The big picture is what counts most with you, and large-scale movements and group work are the idea. You seldom find personalities interesting and are democratic in the real sense of the word. You are an altruist and love freedom.

Moon in Aquarius

You have difficulty controlling your emotions, and this often results in flare-ups with others, especially family or those closest to you. This could cost you much-needed support and intimacy. Your tendency to get harsh, both with yourself and with those around you, may mean that you spend a lot of time alone. You have a tendency to spoil your own nest. Your many responsibilities and obligations may keep you away from those who would offer you much-needed support.

Moon Square Saturn

Everything seems to conspire to put you in the limelight. You always come off well in a group and manage to get your ideas across.

Moon Trine Ascendant

The Inner Planets: Mercury and Venus

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

Mercury: The Mind and Communication

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

You have a very clear and analytical mind and are able to grasp ideas and put them to work at once. You have good management and supervisory ability. You use cold reason, are not much moved by emotions, and are always pragmatic. You prefer concrete subjects to "grand ideas" and flights of fancy. Manipulative too.

Mercury in Capricorn

You are very bright, and you may be very proud of your mind and all that it can do. You have a high degree of concentration that makes you an excellent student and able to excel in speaking, writing, and all types of communication skills.

Sun Conjunction Mercury

Your mind is ever on career and family, and this may not make you the most communicative and social animal. You may prefer to avoid crowds and all large gatherings. You may not need relationships other than at home and at work.

Mercury Square Ascendant

Your mind runs to domestic issues; home and family are always on your mind. This trait could work against your career interests, especially if your job requires managerial and organizational skills. Perhaps a home business would be good.

Mercury Opposition Midheaven

Venus: Values and Discrimination

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

A passionate one, you are never lukewarm in love. It's hot or not. You are in love with mystery, secrets, and intrigue, anything but that which is open or superficial. You have great personal magnetism and a loyalty verging on possessiveness. You are never dull. You enjoy money and influence too. Politics.

Venus in Scorpio

You love to work with younger people and would make a superb teacher or coach. You appreciate a heart-felt approach and are an enthusiast if there ever was one. You understand and encourage emotions, feelings and creativity and

find it easy to work in these areas. You value drive and the ability to get things done. Matters of the heart, marriage, and the like are areas where you can help others.

Venus Trine Mars

You have an innate love of the law and working things through, and you are not put off by problems and obstacles. On the contrary, you look forward to solving them. You have the ability to work with others, in particular regarding vocation or career guidance. You can advise and guide in matters requiring work-related decisions. Others find you a generous and loving person. You always share what you find and have a lucky streak too.

Venus Trine Jupiter

You value the simple life and have little use for pomp and circumstance. Your appreciation for hard work and discipline is natural and lifelong. You actually love responsibility and tend to pile on the work. Others may find you frugal or unnecessarily Spartan, but you love simplicity as much as they love opulence. You can discriminate the wheat from the chaff and put great value on organization.

Venus Conjunction Saturn

Your ability to discriminate real breakthroughs and to spot new trends makes you able to work in areas at the very fringe of technology. You love all that is new and different and are expert at sharing your feelings with others. Electronics, computers, communications (in fact, everything electrical) are right up your alley. You value independence in partners, friends, and love. You are what is called a "free spirit".

Venus Trine Uranus

You are unruffled and like things calm and impersonal. Polite, but not too close, and never personal. You don't appreciate displays of emotion, and any attempts at analysis meet with the cold cut-off. It is as if all vulnerable issues do not, and never did, exist. Your surveillance sees to that. However, the stuff of gossip fascinates and calls to you from across the void. You hate it, but you love it. There is a lot of unrest built around this issue.

Venus Square Pluto

The External Planets: Mars, Jupiter, Saturn

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

Mars: Drive and Emotions

Mars is the planet of emotion and inner motivation or drive. When we search

for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

You have a sense of true understanding and real sacrifice. Dedication to long-range goals, you are future-oriented. Intuitive, you have an inner drive for all that's psychological, religious, and mystical. Artistic too. You are sensitive and can get lost in the clouds on occasion. You are not too logical or practical.

Mars in Pisces

All heart! Feelings are always out front and entirely natural. Love of action, motion (sports, physical, sex, and the like). An expert at matters of the heart. Children, animals, and all creative work get top billing. Always act on instinct, feelings.

Venus Trine Mars

The word here is accomplishment. If there is a job, you can do it. A prodigious worker, you pour yourself into any task with absolute determination. You are responsible to the extreme and take on obligations as though you just can't get enough. You enjoy discipline, and limitations are seen as opportunities rather than as handicaps. You would make a good teacher of others in matters of organization, practical competence, and the like. You have a great desire and drive to be thorough and responsible down to the smallest details. You always know what is essential and what is not. You love the routine.

Mars Trine Saturn

Jupiter: Career and Life Path

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

A career in big business is possible, for you like broad, secure foundations. It is important for you to feel safe, and you are very domestic -- family, home, and kids. Supportive, nurturing, you use your intuition and gut instinct over thought and deliberation. Fiercely loyal, you are a street fighter when protecting your own interests or those you love. Very dependable.

Jupiter in Cancer

Born lucky. A natural when it comes to finding the pot of gold at the end of the

rainbow. Very generous with others. Love to spread the good things around. A natural talent for finding your way past the pitfalls of life. A love of travel and puzzles.

Venus Trine Jupiter

Unusual vocations. Your career or life path, the way you make your living or get through life, will be very different, perhaps unique. You always take the road less traveled by and, skirting the crowd and the commonplace, head for parts unknown. Your approach to any problem is always original and you could invent things or discover new places or develop new ways of doing things. Communications, computers, and the whole electronic revolution are a perfect career choice for you.

Jupiter Conjunction Uranus

Your tendency to compromise and settle for less than you dreamed can be a problem. Given the opportunity, you may choose the path of least resistance, willing to bypass some of the things you always wanted in favor of expediency. Career moves must be given special attention. Tension results when you ignore your own desires (the things you need and want) and take a course of action, job, career, or whatever that can never satisfy. Or worse, you may find yourself in a job that is compromising.

Jupiter Square Neptune

Saturn: Responsibilities

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

You have difficulty owning up to any selfishness, sexuality or mental undercurrents of any kind. You may attempt to deny your passions, but you need to accept instincts, attachments, and all things natural. Allow your desires to function unhindered. Take off the straight-jacket. Feel it.

Saturn in Scorpio

Your sense of organization and self-discipline may exist at the expense of your feelings. Others could feel cut off by your no-nonsense approach and may not be as supportive as you might wish. This could result in your being somewhat of a loner.

Moon Square Saturn

You love discipline, organization, and all of your responsibilities. You are

uninterested in the frills of life and value only what is essential, the bare bones. Your love of simplicity may appear as austerity and frugality to others.

Venus Conjunction Saturn

Applied force. Practical competence. Tremendous discipline and a love of routine work. Ability to simplify, code, and reduce a subject to its essential elements. Inner drive to be thorough and responsible in minute details. Self-disciplined.

Mars Trine Saturn

The Outer Planets

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the transpersonal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

Uranus: Break-Thrus & Insights

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

You are very innovative in your approach to home, family, and the domestic scene and can really see how to get into traditional values. You have natural insight into sensations, feelings, and just living life. You like to relax by gardening, cooking, and being with family. You get off on the humdrum.

Uranus in Cancer

A love of the new and unusual. Able to grasp and appreciate new trends and concepts at the very forefront of technology. A very free spirit when it comes to friends, lovers, and tastes. In love with what's original. Breaking through.

Venus Trine Uranus

Yours is an unconventional path that may take you into unknown and uncharted waters. Inventive and original, you may come up with new and different solutions. Electronics, computers, and the like may be to the fore.

Jupiter Conjunction Uranus

The rebel in you likes to ignore your dreams and ideals and just let come what may. You relish your freedom and independence and pursue it even at the expense of what you know you really want. You can take delight in ruining your own deep-rooted dreams. The romantic in you struggles against the frontier spirit that often moves you to action.

Uranus Square Neptune

Neptune: Ideals & Imagination

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Relationships are the ideal. Non-discriminating and impersonal in scope, to you all are equal. You are seldom bound by tradition or personal ties and are not domestic. You hold the ideal vision up to the real. You open up in response to others and accept others as yourself.

Neptune in Libra

Your goals and ideals are often in contrast to the actual decisions you make, in particular those regarding career. Your tendency to head in directions that are less than ideal, that don't fit your own dreams and self-image, causes tension.

Jupiter Square Neptune

Your independence and unconventional manner may be at the expense of ideals and dreams. You may alternate between following your more traditional ideals and shattering your self-image via some very erratic and unusual behavior.

Uranus Square Neptune

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

Neptune Sextile Pluto

Pluto: Inner Change and Growth

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is

one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

You are very sensitive (even vulnerable) when it comes to expressing yourself, getting it out. Periods of intense creativity enable you to go through changes and inner growth. This creative intensity is good for music, poetry, art, and such.

Pluto in Leo

Innate intensity and seriousness are visible to all. A sense of the eternal aspects of life makes authority and leadership positions natural and unavoidable. A gut sense of how to act in stress situations. Lots of charisma. Power.

Sun Trine Pluto

You may not appreciate displays of emotion or psychological analyzing and probing. This could become kind of a thing with you, trying to avoid sensitive issues that keep coming up all around you. You are fascinated by this stuff, not to mention gossip.

Venus Square Pluto

A searing vision that cuts through what passes for conventional religion. A vision of the endless process of life ever being born afresh. Great acceptance and faith in the natural process and next generation. Love of children and animals.

Neptune Sextile Pluto

Challenges and Abilities

Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

Unusual vocations. Your career or life path, the way you make your living or get through life, will be very different, perhaps unique. You always take the road less traveled by and, skirting the crowd and the commonplace, head for parts unknown. Your approach to any problem is always original and you could invent

You can discriminate the wheat from the chaff and put great value on organization.

Venus Conjunction Saturn 05°09'

Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscurity often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

Your mind is ever on career and family, and this may not make you the most communicative and social animal. You may prefer to avoid crowds and all large gatherings. You may not need relationships other than at home and at work.

Mercury Square Ascendant 00°04'

Your tendency to compromise and settle for less than you dreamed can be a problem. Given the opportunity, you may choose the path of least resistance, willing to bypass some of the things you always wanted in favor of expediency. Career moves must be given special attention. Your many responsibilities and obligations may keep you away from those who would offer you much-needed support.

Moon Square Saturn 08°58'

Talents and Abilities

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

The word here is accomplishment. If there is a job, you can do it. A prodigious worker, you pour yourself into any task with absolute determination. You are responsible to the extreme and take on obligations as though you just can't get enough. You enjoy discipline, and limitations are seen as opportunities rather than as handicaps. Landscape: Major Life Periods

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your

time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

Your Personal Background

A very active and outgoing youngster, you show an interest in the outside world and social life very early, say around 11-12 years of age. You may at this time move very rapidly into the limelight and find yourself a leader and quite successful in all social activities. Things will just work out for you. This trend will continue and reach a peak when you are about 18-19 years of age, after which time you will lose interest in the social and external and turn more inward. This could result in your being somewhat of a prodigy and achieving a very early career success, only to find yourself less and less involved in it. You may even turn away from everything and choose to start over again to find a new vocation. You may discover yourself spending many years pursuing a more inward and subjective path that could last until you are 30 years of age (or more) at which time you will turn outward once again and take a new direction.

Your Current Situation

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

Aug 19, 2002	1st Pass D> (Age 47 7m)
Dec 05, 2002	2nd Pass R< (Age 47 11m)
May 06, 2003	3rd Pass D> (Age 48 4m)

The above dates mark the end of a number of years of hard work on your part, sort of an apprenticeship. Now you will begin to come into your own. Opportunities will present themselves. Now is the time to make that outward push and ride the crest of the wave into fame and fortune. This is the best time you will have (for many years) to make progress, push forward, and rise to prominence. It will be hard for you to do wrong, for all the cycles are working in your favor. This is also a time when you may marry or take on a new role in the community or with other people. You will be in demand, and recognition will be forthcoming. Go for it. These next 6-7 years will find circumstances working to help you and raise you up, push you forward. In summary, this marks a more outward and enjoyable series of years, during which things will come to you easily. Friends and a social life are in order and, in general, an easy and untroubled life. These are good years to grow up, be social, recognized, and so

on.

The Elements, Modalities and Angularity

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

You experience life mostly through your emotions and how you "feel" about someone or something. Your intuition is strong and can guide you accurately in making forecasts or decisions. Your sensitivity makes you recoil from aggressive types.

Have Water

Your inner self-confidence may be lacking, and you could try to overcome this by defensive aggressiveness. You probably wish you had more of the self-assurance your fiery acquaintances have.

Want Fire

You are an aggressive prime mover, a starter, able to initiate and get things moving. Not always hot on the follow-up, you may tend to get the ball rolling and get out to move on to other things.

Have Cardinal

You may lack flexibility, managing a foot-in-the-mouth when you least need it. You could have trouble adapting to situations or to the demands of those around you. Perhaps it is not easy for you to communicate or smooth over things.

Want Mutable

Your energies run effectively toward making yourself felt in the material, tangible outer world. You are an "action" person who gains the attention of others and seems to get things moving. The circumstances of your life suggest extroversion.

Your Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have a high burn rate (index of change) and tend to run hot and fast. It is almost like having many lifetimes within this single one. Things are always fast and furious with you, and you seldom remain calm for long. Your thirst for experience and growth keeps you always on the move. You work through an enormous amount of change compared to an average person. In particular, the following qualities are areas where you have experienced and will continue to experience much change. These areas of life persist in presenting themselves to you, so you may already have become very experienced in them. On the other hand, they could be arenas in which you struggle but have not yet attained mastery.

A majority of planets in the FUTURE suggests that you tend to run ahead of the pack, taking changes and acting things out before they become accepted and a part of the status quo. Things happen to you that you come to understand over time.

Planets in High Focus

Your mind is exceptional in its clarity. All that is mental comes to you without struggle or labor -- ideas, thoughts, mental things of all kinds. The light in your eyes reveals the brightness of your mind to everyone who comes to know you.

Mercury

You have a high rate of change when it comes to what you believe in -- your ideals and dreams. You adjust and change your ideals often and struggle not to get carried away with each new vision. The world of your imagination is a major focus of change.

Patterns: Your Inner and Outer Self

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

You are no secret. Outside or inside, there is not much difference. You are just as you appear.

Geo: Square Helio: Square

Your Soul Type

You are independent, confident, and more than likely more than a little self-centered. You love attention and somehow manage to gravitate to the center of almost any group or happening. Others accept you, for they sense you are a leader and admire your almost regal manner. Yet they may have to keep their distance, for as much as you love attention and the crowd, you are also fiercely protective of your independence, sense of freedom, and -- above all -- your privacy. There is a kind of contradiction here. When in the mood, you love to express yourself, entertain and perform for others, and enjoy being surrounded by an audience. You are very magnetic and dynamic. Others love to be with you. There is something about you that others can't seem to get enough of; yet for all your confidence, you tend to depend on others for advice and counsel. Your grasp of the moment is unquestioned. You're it, or at least always in the midst of it. Yet you find yourself needing the advice of someone who is not as involved, someone to give you directions from time to time. In a sense, you are all dressed up but are not sure where to go or where you are headed. And because of this, you depend on those around you for direction and guidance during the times when you lose sight of the bigger picture.

You are a very feeling person and can sense the drift of a situation without a lot of analysis. This immediate "hands-on" approach might be contrasted with one that is more deliberate and cerebral. You could be left with a bit of an inferiority complex when it comes to matters of education, philosophy, and conceptual ability. In a word, you revere this kind of stuff, not because it is natural to you but rather because it does not come easy for you. You have to work for it. There may be a tendency on your part to puff up your intellectual powers.

It is said that there are just two kinds of people in the world, those who are born to love and those who are born to be loved. You are the second type, one who is born to be loved and cared for by others. Don't feel bad about attracting attention in a group. People love to be with you and find you very easy to love. Everyone wants a piece of you, and this can result in your needing more space, a chance to be alone. Your type is not famous for being attentive to the needs of others or being very demonstrative in a love relationship. You are the immovable object that others find irresistible and sometimes selfish. You love to express

yourself and are a born entertainer. You are very stubborn and have great stamina. You may tend to fear that others find you a little dense or too sense-oriented. You radiate energy and information and have to just accept the fact that people like to feel your warmth. Let them take care of you. You sit on the throne.

The Key to your Inner Life

Each person has one or more key qualities. Here we are not referring to our appearance or personality, but rather to our inner nature, how we are when someone really gets to know us.

In a word, it is your emotions and gusto that hold your innermost self together. Your feelings are not just important, they are central to getting to really know you. A strong devotional nature becomes apparent to anyone who takes time to know the real you. All else follows upon this inner drive and energy. The search for a mate, and marriage in particular, are crucial for you. You are driven to unite and find out what togetherness means.

Mars

At the deepest level, you are a high floater, very much at home in the realm of visions and dreams -- a seer. Your inner ideals are pure and spiritual in the true sense of the word. You always see beyond that which is divisive to the unity that binds it all together. You grasp the theme or thread that connects things. There may well be the ability to entrance, either with words or music, and to overcome any objections with a flood of concord. When it comes to images, you are a smoothie. This tendency to see unity in the world around you sets the tone for your character.

Neptune

The Key to your Personality

Your sense of discrimination, the ability to discern gradations and differences, is a crucial element in your personality. You relish and cherish things so. Your value system, the way you enjoy and appreciate everything, is a central factor in your make-up.

Venus

All things pale beside your basic drive and the emotions you so freely exhibit. Your world revolves around feelings and the meaning you give to things. The way you feel about something is crucial, and if someone doesn't have the right atmosphere or feel right to you, they might as well not be there. Emotions are the glue that holds you together.

Mars

The Personal Hot Spot

Your responsibilities and all that determines and limits you are a prime focus for change whenever it comes around.

Saturn

Interface: Innermost qualities

This feature is based on an intricate analysis of the position of a particular planet in relation to the orbital planes of the other planets. The resulting series of crossings, or nodes, tells us something about the nature of our innermost inclinations (Inc) and disinclinations (Dis). These indicators are not to be considered at the level of our personality, but rather are deep-seated parts of our innermost character -- our internal biases. These pros and cons are not apt to change in the course of our lifetime.

When you love, you love with energy and passion. You value personal contact, cutting through all the externals and getting to the heart of things. You understand and appreciate vulnerability and have no compunction about presenting your own sensitive spots to others. You enjoy working behind the scenes, getting at secret and hidden areas of the mind and psyche. Changes and transformative experiences are where you like to be most.

Venus Inc Pluto

You have trouble accepting responsibilities. You don't like them. You would rather enjoy yourself at the expense of any obligations, letting them accumulate as they will. This struggle with authority and simple duty makes for great tension and diminished good times. It is hard to have fun when you are ignoring your responsibilities. What we have here is a stalemate.

Venus Dis Saturn

There could be a lot of emotional tension with this combination. You tend to set yourself against whatever forces of change manage to rear their heads around you. This is never more true than where your feelings are concerned. Your attempt to remain untouched and impersonal seems doomed to failure. Everything intrudes, gets too personal, and threatens to hurt your feelings. Your insistence on being an emotional island is probably interspersed with bursts of anger, even fits of rage.

Mars Dis Pluto

A career in psychology, areas of the mind and self that are vulnerable and sensitive, is indicated. You not only like change and transforming experiences, you pursue them for their own sake. You head straight for whatever challenges your sense of identity and puts you through changes. This life path could also carry you into subjects like reincarnation, psychic experiences, and all that is occult or hidden from common view. You plunge right in, dig through the whole mess, and leave not a secret unturned. Yours is a career deep in change, transformation, and metamorphosis.

Jupiter Inc Pluto

Secrets have a short half-life around you, for you have them out in a wink of

an eye. You are brilliant when it comes to insights into the mind, psychology, and motivation -- yours or others'. Your intensity is obvious, and some may prefer to keep their distance rather than subject themselves to your laser eye. Nothing is passed over without being turned inside and out. Your analytical powers are superb, and you enjoy finding new avenues of inner growth.

Major Transits Happening Now

Astrologers use the term "transits" to mean the positions of the major planets that are overhead (in the sky) right now and their relationship to our birth chart. Transits are very important indicators of the current situation in which we find ourselves. They can provide insight into what we are now going through. Here are the dates when the next major transits for the planets Jupiter, Saturn, Uranus, Neptune, and Pluto are exact in your chart. Some dates will have already passed and some are still to come. Remember, with these large planets transits don't just happen on the day when they are exact. They cover a wide span of days, weeks, months, and sometimes years, depending on which planet is involved.

In general, transits of Jupiter take from several days to a week or two to complete, while those of Saturn take from two weeks to a month to play themselves out. With the outer planets, the period of activity is even longer: transits of Uranus take about two months, Neptune three or four months, and Pluto takes about a year. Uranus, Neptune, and Pluto move so slowly that the complete transit experience may take a year or two to complete itself. So be prepared to work with these situations.

House Activity and Emphasis

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

First House: Appearance, Approach

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

First House

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. What is sometimes seen as two-faced is only Libra's facility at responding to each in kind. This is certainly the social sign, par excellence. Impersonal and impartial, this sign doles out only what is demanded, never overdoing things.

Libra

You are a real charmer -- able to enchant others and bring them under your spell. You manage to communicate an almost mystical sense to a group. Your ideals and ability to see the whole picture are obvious to all who come to know you.

Neptune in First House

Second House: Possessions, Reactions

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

Second House

Scorpio is the most famous sign. Intense, passionate, and very personal, Scorpio rushes past superficialities and right to the heart of any matter. A loyal friend but a fanatic foe, this sign does well in politics and all areas where someone who dares is rewarded. Often associated with sexual energy, perhaps due to its tendency to strip away veneer, laying bare anything that is there.

Scorpio

You have a natural love of possessions and the material world. You value art and all that is beautiful and fine. Your sense of taste and discrimination is excellent.

Venus in Second House

You could be frugal when it comes to possessions, always limiting your purchases to what is essential and has value. This same theme carries through in your response to people. You don't tend to lavish affection or sentiment. You keep it short and simple.

Saturn in Second House

Third House: Inquiries, Communications

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

Third House

Sagittarius is nothing if not direct, candid, and to the point. Sometimes harsh, this energy always is concerned with the absolute truth of the subject at hand. Associated with philosophy, religion, and all things that last, Sagittarius energy is always welcome in politics as well as social and community endeavors, where its basic fairness and evenhandedness is helpful.

Sagittarius

You are very communicative, not a little curious, and like to talk, speak, write, and so on. Study, research, and investigations of all kinds appeal to you. You are always searching out some answer or another. Siblings are important too.

Sun in Third House

You love to study and question and are always inquiring and searching, using your mind for research. You enjoy communication in all its forms -- spoken, written, via computers, and so on. Your mind is active, always testing and searching for limits.

Mercury in Third House

Fourth House: Home, Family, Security

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

Fourth House

Capricorn is the business energy of the zodiac, for it is the very opposite of the emotional Cancer. Given to clear-headedness and practical insight and vision, this sign always takes a distanced perspective, a cool appraisal. Logical and painstaking, Capricorns love hard work and earned results. Money and things in general are very important.

Capricorn

You look to home and family for support and encouragement. History (personal or otherwise) interests you, and you tend toward nostalgia. Security is very important and you need to have real roots in order to be productive.

Moon in Fourth House

Fifth House: Expression, Creativity

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

Fifth House

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

Aquarius

Sixth House: Responsibility, Work, Health

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

Sixth House

Pisces energy runs deep and toward the psychological -- whatever is beneath the surface. This sign is understanding, patient, and long-suffering. Pisces tend to absorb all the little barbs and digs coming from outside. They always have their mind on an inner goal, something more important. They are very forgiving and accepting -- giving of themselves for the sake of more important issues.

Pisces

You are very motivated when it comes to matters of care and service -- taking care of details. You are up for any task that requires conservation -- separating the wheat from the chaff. An urge to salvage everything.

Mars in Sixth House

Seventh House: Relationships, Other People

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

Seventh House

Aries is the sign of the pioneer and leader. It is always impulsive, concentrated, and spontaneous. Act first and think about what you have done later. Rushing in where others fear to tread, the Aries energy is attention-getting. It always provokes a response from the surroundings, from others. There is something essential and instigative that starts or causes something else to happen -- a reaction or response.

Aries

Eighth House: Business Savvy, Elimination

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house

also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

Eighth House

Taurus manages to respond, possess, and "have" just about everything possible. This is a nurturing and fertile sign in that any seed or impulse is cradled, bringing forth growth and development. Taurus is the way we "have" things, how we possess and acquire things. There is something gentle, regular, steadfast, and determined about Taurus. Always accepting, mothering, providing a base for... a matrix or womb where growth takes place.

Taurus

Ninth House: Religions, Philosophy, Ideas

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that is the very heart of things belong here.

Ninth House

Gemini is concerned with connections and communication of all kinds -- letters, wires, telephones, voice, thoughts, writing, and mental processes in general. Gemini is the gadfly, the communicator, the gossip of the zodiac. Searching conversations, scientific inquiry, research, and so on belong here. Gemini energy is unattached, independent, and inquisitive.

Gemini

Tenth House: Practical Vision, Vocation

The 10th house is a house of practical vision and clairvoyance, for here we can see clearly what is. Reputation and career are often connected to this house, since the areas where we can see with greatest clarity are those we most often can put to use to make a living. In summary, this house is where we have real vision and can see to do and work. Planets transiting this house may provide moments of insight and clear-seeing as well.

Tenth House

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

Cancer

It is natural for you to put your practical and managerial abilities to work. You

can make a career out of your keen organizational skills and clear insight into how things work. Supervision and taking charge are your trademarks.

Jupiter in Tenth House

You are original and insightful when it comes to practical matters -- job, career, and such. Independent, you may have an unconventional approach to work, especially regarding how you organize or manage. You may have a reputation for being different.

Uranus in Tenth House

Eleventh House: Dreams & Visions, Community

The 11th house has to do with putting our visions and dreams to work. We have been on the mountain and had a vision (10th house). Here we take our vows never to forget what we have seen and to work hard to make these dreams into reality. Thus this house has always been connected with altruistic and humanitarian goals and trying to set them in motion. It is the house of friends and community, because when we are powered by a real insight or vision we share with all -- irrespective of differences.

Eleventh House

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

Leo

Your burning zeal for the ideal world and your need to be part of a group of like-minded souls are major factors in your makeup. You learn and grow through your efforts to help others and to make your inner vision into a reality.

Pluto in Eleventh House

Twelfth House: Sacrifice, Psychology, Acceptance

The 12th house is about all that we go through in order to make our dreams into reality and manifest them in the world around us. It covers what we are willing to put up with, the sacrifices we will make in order to bring across what is really important. This is connected to prisons, institutions, betrayal, self-undoing, and the like, because it is here that we must choose to take some possible abuse for the sake of the message we are carrying, or blow it all away with a negative reaction.

Twelfth House

Virgo energy is analytical and precise, always separating what is worthwhile and worth supporting from that which is outmoded and of no further use. A mental sign, where thinking and examining are in high focus. Also, a different kind of mother, here an endless caring and worrying (fussing) about just about everything. Always compassionate and responsive, Virgo energy is service-

oriented above all, often thinking and caring more about what others are doing and thinking than for self.

Virgo
